2026
Conference
& Exhibition

APRIL 23-25, 2026

Metropolitan at the 9 Cleveland, Ohio

The PEARL Annual Conference and Exhibition is the premier event for the electrical equipment recovery industry.

This event draws nationwide participation by professionals concerned with the safety and reliability of reconditioned and remanufactured electrical equipment and apparatus.

April 23, 2026—Conference Kick-Off

- Committee meetings
- Comprehensive technical sessions & resources
- **Hands-on technician training**
- Exhibitor Reception

April 24, 2026—Technology Exploration Day

- Explore risks, strategies, and tools to improve asset reliability and maintenance.
- Technician Certification Exams (Levels 1, 2 & 3)
- **Hands-on technician training**
- Sponsor-Exhibitor Showcase & Raffle
- President's Dinner & Trivia at Southern Tier

April 25, 2026—Facility Tours

- **Facility Tours**
- Closing Informal Gathering

Join us for an engaging three-day event filled with expert insights, thought-provoking discussions, and unparalleled networking opportunities.

CIRCULATION

The Electrical Advertiser has a nationwide mailing list of over 80,000 names. 25,000 publications are mailed on a monthly basis. Additional copies are distributed at many industry trade shows we attend as an exhibitor and can also be seen on our website or thru our ipad/iphone app. Our publication is a buying source for electrical contractors, distributors, utilities and plant facility personnel. Our list has been established over the last 41 years through personal contacts, trade show representation, online requests and direct marketing efforts by our staff.

The Electrical Advertiser

1010 Dale Street North, St Paul, MN 55117

800-328-0328 • Fax 888-566-7345

MAIL LIST UPDATE

We are constantly updating our mail list in an effort to make it the best possible! If you no longer read or use *The Electrical Advertiser*, please call us at 800-328-0328 and we'll remove your name. If more convenient, make a copy of the mailing label and fax it to our toll free fax number at 888-566-7345. Our mail list is extensive at over 80,000, and it is our intent to put the publication into hands that will use it!

Jameson Bulldog Bender Tools: A Must-Have for Professional Electricians

Electrical installations often require bending heavy-gauge cables inside tight panels, switchgear, and enclosures. Without the right tool, this process can be difficult, time-consuming, and physically demanding. That's where the Jameson Bulldog Bender tools come in. Designed specifically for professional electricians, these tools provide the leverage and precision needed to bend large electrical cables safely and efficiently.

Whether working in service panels, motor controls, wireways, or meter bases, Bulldog Benders help electricians complete installations faster while reducing strain on the body.

What Are Jameson Bulldog Benders?

Bulldog Benders are specialized cable-bending tools designed to bend and position large electrical conductors such as 4/0, 500 MCM, 750 MCM, and even up to 1000 MCM cables.

They are built from high-strength steel and designed with offset dowels and long handles to provide maximum leverage in confined spaces.

Key features include:

- Powerful leverage for bending large cables
- Slim handles for tight electrical enclosures
- Knurled and smooth dowels for different bending preferences
- 90° offset dowel orientation for flexibility
- Durable powder-coated construction
- Lifetime warranty from the manufacturer

These features make Bulldog Benders one of the most reliable tools for electricians working with heavy conductors.

Continued on Page 30

LOOKING FOR SOMETHING UNDERGROUND?

We found it!

We've found underground PVC plastic pipe, electrical cable, conduits, steel pipe, ceramic pipe, and asbestos pipe. We've found it all with the MAGNETOMATIC.[®] This pipe locator has one moving assembly - contains no dials, intricate mechanisms or batteries. In essence, the MAGNETOMATIC[®] is a "space age" divining rod. It simply reacts to pipe and cables underground when it passes over them. MAGNETOMATIC[®] is effective to a depth of 10 feet or more. It collapses into a neat package that fits into your hip pocket. Sold on a money-back, satisfaction guaranteed basis. Used by contractors, public utilities, plumbers, and others. Simple, easy-to-read instructions. Reasonably priced.

MAGNETOMATIC
PIPE LOCATOR

EXTEND THE LIFE OF YOUR ELECTRICAL EQUIPMENT

Electrical Solutions Experts

Advanced Electrical & Motor Controls (AEAMC) specializes in electrical solutions for discontinued electric power distribution equipment, including:

- Molded case circuit breakers
- Insulated case circuit breakers
- Motor controls
- UL-508A panelboards

Trust AEAMC to deliver innovative, cost-effective solutions that extend equipment life with minimal downtime. Our in-house technicians test and recondition our products to the highest standards in the industry and provide 24/7 disaster and emergency response.

Contact us for custom engineered solutions.

The Solution
 To stak, store, protect, and pull wire!

USA MADE

Stak: Up to five units tall. Easy two handed ergonomic carry from truck or jobsite.

Store: 500' spools of 14, 12 & 10 AWG wire easily for inventory control. Polymer design reduces damage to finished surfaces on the job.

Protect: Reduces wire damage from tools and personnel. Made of non-conductive polymer.

Pull: Pull wire smoothly from the top or the sides when in the Stak. Support large spools with molded V-Grooves.

GENERATOR SOLUTIONS FOR YOUR HOME AND BUSINESS! SPRING SALE

WINCO GENERATORS - www.wincogenerator.com

CALL TODAY 1-800-328-0328

PACKAGED STANDBY AND AFFORDABLE DIESELS

Our most popular Standby model is the **PSS8**. It can be placed in both prime and standby applications so it is just as appropriate for a remote pump as it is for your house. At **\$5593.60** it is priced right for business and home use.

The **W6010DE** at only **\$5851.20** is the most affordable, most serviceable, and most reliable air-cooled diesel ever. This unit is appropriate all the way from home use, to job sites, to emergency response vehicles.

COMMERCIAL AND INDUSTRIAL GENERATORS

You expect the best, you get the best. The **WL12000HE** with a **Honda GX630** Engine is better than ever including improved adaptability, quieter operation, and greater fuel efficiency. **ONLY \$5032.40**

It doesn't get much more powerful than our **WL18000VE**. While there is one competitor on the market, it is not an equal. This industrial grade unit sells for **\$6062.80**

PORTABLE TRI-FUEL GENERATOR

The **HPS12000HE** was built with versatility in mind. It is the only Tri-Fuel capable, Honda-powered generator on the market that **DOES NOT** void the engine warranty. It's constructed with the same engine and generator end we use on our Industrial **WL12000HE**. **Only \$4495.00**

Globe Electric Supply carries one of the largest inventories of industrial electrical supplies in the United States. We carry electrical merchandise of all types, including **Hard-to-Find** and **Obsolete** products.

1-800-221-1500

Conduit Fittings
 Large assortment of all types of conduit fittings, all sizes and types, malleable iron and aluminum, threaded and set screw.

Explosion Proof Items
 Extensive inventory in stock of all types of boxes and connectors, receptacles and plugs, flexible conduit, light fixtures and controls from major manufacturers.

Lighting Fixtures & Bulbs
 Globe stocks commercial and industrial lighting fixtures and lamps. From incandescent to fluorescent - from metal halide to explosion proof and vaporite - including lamps, and fixtures for designer applications.

Circuit Breakers
 Globe Electric stocks current and obsolete circuit breakers from all major brands, in all voltages, amperages and models, including mounting hardware and accessories.

Motor Controls
 Globe stocks a huge selection of current and obsolete motor controls, starters, contactors, pushbuttons and relays from all manufacturers, including contact kits, coils & replacement parts.

Obsolete Products
 From hard-to-find circuit breakers and wiring devices, to obsolete and discontinued panel board switches and fuses - Globe has the products you need

Plugs, Receptacles & Switches
 We stock wiring devices in all types and configurations from all major manufacturers - including pin and sleeve devices and wiring devices in obsolete and hard-to-find designs up to 400 AMP.

Bus Plugs & Panelboard Switches
 We stock present and obsolete models - new and reconditioned - including hard-to-find models. Available in most sizes and types.

Lugs & Terminals
 Copper and aluminum, mechanical and compression types, assorted styles and applications.

Safety Switches
 We stock a massive inventory of disconnect switches in all voltages from 30 to 1200 amps, as well as double throw switches & disconnects in Nema 1 through Nema 7.

Fuses & Fuse Blocks
 As an authorized distributor for both Ferraz-Shawmut and Bussmann, we stock all sizes of fuses in voltages up to 6000 amps.

PVC Coated Items
 Globe Electric stocks an extensive inventory of PVC coated conduit and fittings from Ocal and Robroy.

HIALEAH METER
Meters you can count on since 1954

800.654.0821 - www.HialeahMeter.com

FABRICATED DUCT SPACER

- Off-site duct bank assembly is possible, allowing for labor savings
- A safer installation - less time is needed in the trench
- Do more work outside of the ditch instead of in the ditch
- Cannot fall or tip over
- Easy flow of concrete through the spacers during concrete pour
- Fits all types and sizes of conduit
- Any configuration and conduit separation can be maintained

LOOKING FOR SOMETHING UNDERGROUND?

We found it!

We've found underground PVC plastic pipe, electrical cable, conduits, steel pipe, ceramic pipe, and asbestos pipe. We've found it all with the MAGNETOMATIC®. This pipe locator has one moving assembly - contains no dials, intricate mechanisms or batteries. In essence, the MAGNETOMATIC® is a "space age" divining rod. It simply reacts to pipe and cables underground when it passes over them. MAGNETOMATIC® is effective to a depth of 10 feet or more. It collapses into a neat package that fits into your hip pocket. Sold on a money-back, satisfaction guaranteed basis. Used by contractors, public utilities, plumbers, and others. Simple, easy-to-read instructions. Reasonably priced.

Only \$44.50

Plus \$3.00 Shipping & Handling

Why Electricians Love Bulldog Benders

Professional electricians rely on Bulldog Benders because they make difficult cable work easier and safer.

1. Saves Time on Installations

Large conductors are extremely stiff. Bulldog Benders allow electricians to make accurate bends quickly instead of fighting the cable by hand.

2. Reduces Physical Strain

Heavy cable bending can cause wrist, shoulder, and back strain. The long handle and leverage reduce the physical effort required.

3. Works in Tight Spaces

The slim handle and offset dowel design allow bending cables inside crowded electrical panels and enclosures.

4. Improves Professional Results

Using a Bulldog Bender helps produce clean, consistent cable bends, improving both electrical performance and panel appearance.

Many electricians report that while they may not use the tool every day, "when you need it, it's worth every penny."

Why Buy from ToolsPlusMore.com?

The best places to purchase any Jameson Bulldog Benders is www.toolsplusmore.com

For example:

The Bulldog Bender T-1000-2 set is listed for about \$564.99 on ToolsPlusMore.

Similar tools from many industrial suppliers often sell for \$645–\$700+ depending on retailer.

Advantages of buying from ToolsPlusMore

- Lower pricing than many industrial supply houses
- Fast shipping within the U.S.
- Wide selection of electrician tools
- Reliable professional-grade equipment

Final Thoughts

The Jameson Bulldog Bender line is one of the most valuable specialty tools an electrician can own. From small service panels to massive industrial switchgear, these tools make bending large electrical conductors faster, safer, and more precise.

With models ranging from compact Pup benders to the heavy-duty T-1000 capable of bending 1000 MCM cable, there's a Bulldog Bender designed for every level of electrical work.

For electricians looking to invest in tools that improve productivity and reduce jobsite strain, Bulldog Benders are truly a must-have addition to any professional tool kit—especially when you can get them for the best prices from ToolsPlusMore.com.

SPRING SPECIAL

\$289

The Original Bulldog Bender™

Electrician designed & developed.
Proudly Made in USA.

Bending large gauge electrical cables is difficult, especially in tight spaces. Bulldog Bender gives you the power and leverage to easily install, bend, & terminate cables in service panels, LB conduit bodies, switchgear, motor controls, wireways, and meter bases.

**ORDER TODAY
SCAN HERE**

Quick connect Pro Handle and Adapter Bar

90° offset dowel orientation allows ease of use in a variety of applications

Adapter Bar allows left or right cable bends inside tight electrical enclosures

www.ToolsPlusMore.com

1-800-328-0328

Knurled dowels provide secure grip, while Smooth dowels reduce risk of marring cable insulation*

MODERNIZE CIRCUIT BREAKERS TO AVOID DOWNTIME

Advanced Electrical & Motor Controls (AEAMC) specializes in life-extension programs to keep aging electrical equipment in service. Retrofit solutions replace bolted pressure switches with modern, current-series circuit breakers.

From outage coordination to installation and testing, our experienced team manages every step of the process.

- Enhance system reliability
- Reduce incident energy levels
- Improve electrical safety
- Integrate communications and remote operation
- Get turnkey retrofit solutions

**Contact us today to discuss
your retrofit needs.**
